- iii. Received the minutes of the Planning and Administration Committee meeting held on 21st December 2022.
- iv. Received the draft minutes of the Planning and Administration Committee meeting held on 11th January 2023.
- v. Members considered the response to Monmouthshire County Council's Replacement Local Development Plan.

RESOLVED:

To respond to Monmouthshire County Council's Replacement Local Development Plan as follows:

Chepstow Town Council welcomes the proposed Replacement Local Development Plan Preferred Strategy, and in particular that the plan recognises the need for additional housing

in Chepstow when so many families are in housing need. (367 on the waiting list have Chepstow as their first-choice location).

The Council is however concerned that the proposed development, with 50% social and affordable housing, will not deliver enough homes to satisfy the current need. We would therefore ask that consideration is given to providing even greater numbers of social and affordable housing than in the current preferred strategy.

In addition to the Bayfield's site (CS0098), the council would support a mixed development at Mounton Road (CS0265) with at least 50% social and affordable housing in each. This will come much nearer, in total, to providing sufficient housing to satisfy the current need. In addition, the mixed Mounton Road development may provide employment opportunities. It should be noted that a green wedge between Chepstow and Pwllmeyric is essential, so we would not support the development of CS0112.

The council recognises that any increase in the number of houses in Chepstow will put additional pressures on the already overstretched infrastructure and traffic flow in Chepstow. In particular, at High Beech roundabout. It is essential that development goes hand in hand with measures to address these severe traffic problems. Infrastructure, including child care provision, school places and health services must be included in the plan.

The council insists on the provision of an additional junction on the M48 at Caldicot, which would go some way towards relieving some of the pressure on the local road system, especially in view of the very considerable size of the proposed development in Caldicot, which would otherwise lead to even more traffic at High Beech roundabout.

The council welcomes the proposed strategy's focus on active travel and sustainable transport. The proposed developments must establish active travel routes, and bus services as a means of reducing car use and connecting residents with services.

The council welcomes the plan's commitment to 100% zero carbon housing.
